OWNERS

121

OF 121 DAYS COVERED

0

DAYS WITH NO STEP

2

STEPS ADDED

1 STEP

DAY 0

Referral order created

■ **Ordering provider / PCP**

- Order signed in EHR
- Medical Neighborhood project may encourage more point of care specialist choice for providers.

2 STEP

DAY 0-4

Receipt & Triage

■ **Referral coordinator**

- Review order & demographics
- Enter into Carelink, Infina or Fax notes to specialist
- Monitor failed fax box
- Send MyChart message to patient with specialist information

*Explore text messaging as an option to send patient specialist information
Epic troubleshooting lack of ability to send MyChart message from referral.
Review options other programs for overlay in Epic to automate entry into CareLink portals. Provider re-education on the responsibilities.*

3 STEP

DAY 14-21

First Patient Follow-Up Outreach

■ **Automated (EHR / portal)**

- Text/message outreach in bulk to patients whose routine referrals are in Pending Appointment Details status reminding them and directing to MyChart for details.

This is your first one.

4 STEP

DAY 45-60

Second outreach & re-triage

■ **Automated (EHR / portal)**

- Second reminder of open referral, automated outreach for those still in pending appointment status.
- Add interactive message component for patient to disposition the referral--scheduled, or declined

5 STEP**DAY 120****Closure Outreach****■ Automated (EHR / portal)**

- Automated message for pending appointment referrals that referral is being closed. If you still wish to schedule, reach out to the specialist. If you have been seen please have them send us notes.

Keep Certified Letter for Stat/Urgent as the last step.

6 CLOSURE**DAY 0-120****Close referral****■ Referral coordinator**

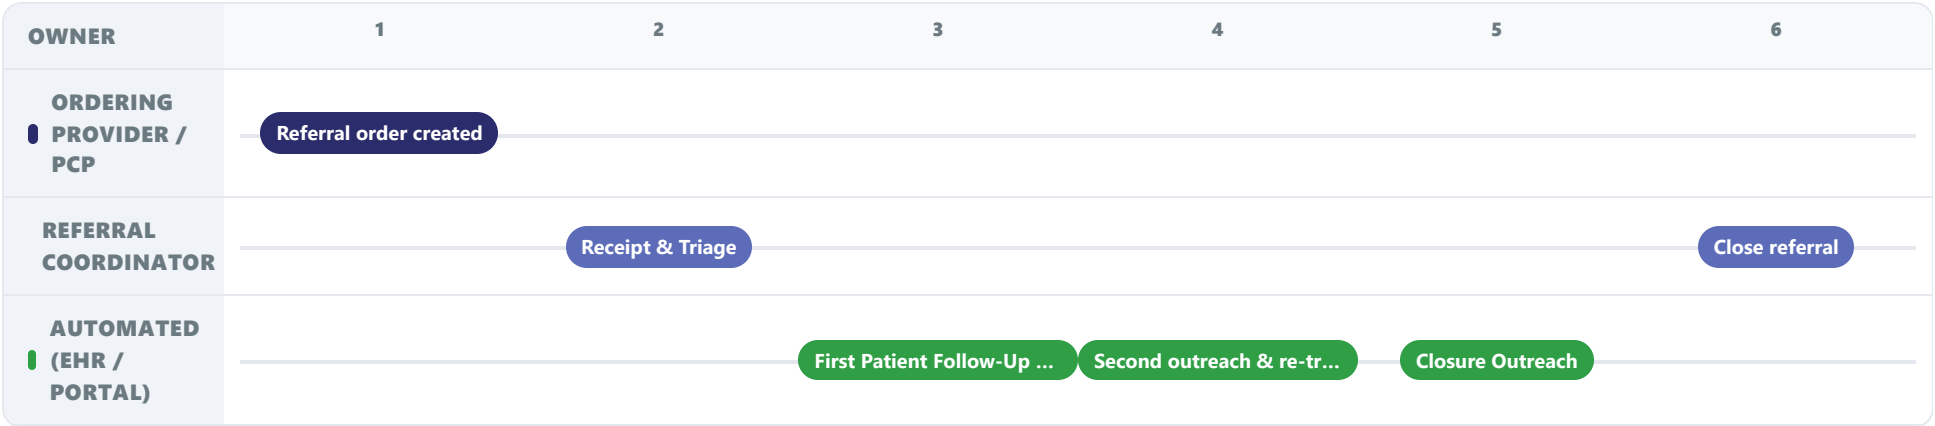

- Update EHR order status
- Attach consult note to PCP chart
- Task PCP if non-fulfilment
- Reasons: Declined, Closed Loop, No-Show, Unable to Reach after 120 days, No Longer Needed
- Communicate Outcome to PCP

*Psych/BH: close after confirming appointment is scheduled
Pain/Nutrition: try to get note to close loop Easy button for order cancellation-open orders option to Discontinue. Providers should initiate cancellation if the referral is no longer needed.*

DAY COVERAGE (DAYS 0-120)

Every day from 0 to 120 is covered by a step.
